Two Post-doctoral Fellowships in 
Protein Biochemistry and Biophysics

Laboratory of Molecular and Chemical Biology of Neurodegeneration
Swiss Federal Institute of Technology Lausanne
Lausanne, Switzerland

April 3rd, 2018

Two post-doctoral positions in protein biochemistry and biophysics are available immediately in the Laboratory of Chemical Molecular Biology of Neurodegeneration (http://lashuel-lab.epfl.ch/) at the Swiss Federal Institute of Technology in Lausanne (EPFL), Switzerland (www.epfl.ch). The applicant must have a Ph.D. degree in biochemistry and/or biophysics with a strong publication record and demonstrated experience in at least two of the following areas; 1) structural characterization of proteins (NMR, EM, AFM); 2) protein aggregation and amyloid formation; 3) single molecule spectroscopy and imaging; Additional experience in molecular and cell biology is a plus.

We are looking for highly motivated and enthusiastic scientists with a Ph.D. degree in Chemistry, Biochemistry or Chemical Biology. Candidates with experience and demonstrated track record in protein biochemistry and biophysics and working at the interface of chemistry and biology are encouraged to apply. Very good writing and communication skills are important, and the ability to be a team player is a must.

The qualified candidate will benefit from working in very dynamic and multidisciplinary group in a highly collaborative and stimulating environment and will have access to state of the art laboratories and core-facilities and a competitive salary.

For more information about our group, please visit our website and review our recent publications at http://www.ncbi.nlm.nih.gov/pubmed/?term=Lashuel
